Response to Arguments

1. Applicant's arguments, see pgs. 10, 15-18, filed June 28, 2006, with respect to claims 33, 34 and 36 have been fully considered and are persuasive. The rejection of claims 33, 34 and 36 has been withdrawn.

Allowable Subject Matter

2. Claims 33, 34, 36-67 allowed.

3. The following is an examiner's statement of reasons for allowance:

In reference to claims 33, 34 and 36:

Amendments to the claims overcome the prior art rejections made in the previous action. Applicant's arguments with respect to feeding a supplementary and auxiliary key along with the data to a supplementary cryptographic process only if the data has predetermined properties and feeding it through the main cryptographic process regardless of whether or not the data has the predetermined properties were persuasive over the prior art. The prior art of record (Wood, U.S. 5,003,596) disclosed data being fed to a main and supplementary cryptographic process taught by Schneier, however, if the data had the predetermined properties, then it was not fed to the main cryptographic process. Wood failed to teach the data and supplemental and auxiliary keys being fed to a supplementary process only if the data had predetermined properties but still feeding it to the main cryptographic process regardless of the predetermined properties of the data.

Art Unit: 2132

None of the other references cited in the prior action combine with Wood to disclose the limitations of claims 33, 34 and 36.

An updated search did not uncover any new prior art not owned by the same assignee of the instant application. No art disclosing, nor motivation to combine has been found which recites feeding data, supplementary and auxiliary keys to a supplemental cryptographic process only when the data has predetermined properties.

All other pending claims are dependent on allowable claims 33, 34 and 36 and are allowable for that reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
